

DOI Work Activity 0P: Preserve Land and Aquatic Health

| | |
|------------------------------|---|
| Program Area: | Landscapes and Watersheds |
| End Outcome Goal: | PEO 1 - Improve Health of Watersheds, Landscapes, and Marine Resources that are DOI Managed or Influenced in a Manner Consistent with Obligations Regarding the Allocation and Use of Water |
| Intermediate Outcome: | PIO 1.2 – Manage and Protect Watersheds and Landscapes |
| DOI Sub process: | 4a – Manage use of resources |

Examples/Notes: Resource protection such as backcountry rangers and general resource management costs. Costs for tangible assets “on the ground” required for compliance with DOI and other regulations affecting natural resources.

Work Activity Description: Includes all work required to manage and protect land resources from either human or natural threats. It covers a range of tasks involving wilderness and natural resource protection and management, watershed and backcountry maintenance, and control of geologic resources and other landmarks. Tasks can include patrolling and safeguarding land and facilities and constructing/maintaining protective barriers and equipment.

Does not include restoring land and aquatic resources (upland, marine, wetland and riparian), that have been damaged or polluted and in need of treatment. Land/aquatic resource restoration work is captured under DOI Work Activity 7F – Perform Wetland Restoration Treatment; DOI Work Activity 7G – Perform Upland Restoration Treatment; DOI Work Activity 7J – Perform Riparian Restoration Treatment; and DOI Work Activity 7K – Perform Marine Restoration Treatment.
